INSTRUCTIONS TO EXHIBITORS

TOPICAL TIPS

- 1: Make sure each exhibit has the number of items required in the schedule and is entered in the correct class. **5 stems per vase** means 5 individual stems and does not refer to the number of blooms.
- 2: **Hints for preparing Exhibits.** Exhibits must match the schedule in number, form and size. Faults are often found in particular classes:
Beetroot: Remove leaves leaving about 7.5cm (approx 3") of leaf stalk.
Shallots (Pickling): Must all pass through a 2.5cm (approx 1") ring.
Carrots: Don't remove the leaves, but trim them for tidiness.
Tomatoes: Leave calyces on.
Fruit: Don't remove bloom from plums or polish apples. All fruit should have stalks attached.
Flowers: Make sure that annuals and perennials are in the correct classes. Don't mix types just because you are short of blooms. The use of cling film to firm up stems in vases is not advised. Standing your vase or plant on an upturned dish may enhance arrangements. Take a long look at your exhibit and remove any dead or damaged leaves and flowers as these will detract from your presentation.

Domestic Section: Make sure that your jars are correctly labelled, are clean, and have no stickiness or fingerprints. Wax/greaseproof discs should be used for chutney's and pickles. 16oz/450gm refers to the weight of the contents. You may cover dishes if you wish with cling-wrap.

Check that your exhibit is in the correct class.

Definitions: - "Kind" and "Variety" are always used in the following sense:-

Sweet Peas, Roses, and Dahlias are "Kinds" of flowers,
Shot Silk, Peace, and Ena Harkness are "Varieties" of Rose,
Peas and Potatoes are "Kinds" of vegetable,
Gladstone and Onward are "Varieties" of Pea.

Don't leave your entry to the last minute. Your exhibits must be in place by 11:30am. If you arrive late you may be refused entry, or asked to leave before you have had time to complete your entry and arrange your exhibits.

Please ensure that you follow the scheduled rules to avoid disappointment
